**Bakerville's Playoff Run was Team Goal**

Make room for another seat at the table of 2A football powerhouses. The Bakerville Cardinals have played their way into the Division II Region II semi-finals.

They only lost the game against the Greenbay team: 23-14.

Bakerville scored the only points of the first half but Greenbay scored twice in the final frame to take the win.

But we can see that the team has a lot of talent and "These kids have a lot of heart," said head coach Robert Newman.

Newman said, the team has got exactly what it wanted.

"Last year, we missed the playoffs. After the season I asked the boys to set a goal for the next season and they said 'We want to make the playoffs!'

This year we have done everything to reach this goal."

The team has taken a big step and it took only one game to show them it was possible to reach the playoffs. Newman knows when it happened.

"Well, the kids really concentrated on the first half of the game against Highwater, a district opponent, and it was their homecoming. Half way through the second quarter, we were winning 35-0. That was when the kids believed they were a pretty good team."

If Newman tells his players again to set a goal for next year, there will be no stopping them for next year. So we are looking forward to the next season.
